

BIOTECHNOLOGY, MILLIONS THAT CAN GENERATE BILLIONS? ¹

TEACHER PERSPECTIVE ON STUDENTS' ASSESSMENT

*An overview on bringing Inquiry Based Science
Education (IBSE) into the classroom
or the 5 “letters” no one told me about*

Ana Margarida Gomes Vicêncio

Dublin, SMEC – 24th June, 2014

This activity was set up under the 1st SAILS Portuguese workshop for teachers: “Why is there so much talk about INQUIRY across Europe? A proposal to work with the science curriculum in the classroom” (May 2013). It was proposed by Ana Vicêncio and adapt to the SAILS unit structure.

About the unit...

- Lower Secondary
- Ages 14-15
- 89 students (3 classes)
- Natural Sciences (Biology/ Mendelian inheritance and Genetics)

Getting prepared
